

# Site Progress Mobile for Asta Powerproject

## Download and Integrate

Once 'submitted' project information has been uploaded to the Cloud by Site Progress Mobile users, it is available for the Asta Powerproject user (using the Site Progress Manager) to download and integrate into the Asta Powerproject project(s). The download is typically done at the end of the week (or period).

## Reschedule

Once updated, project information has been imported into the Asta Powerproject projects, the projects to see the impact of the progress on the project.

The process can be started again, beginning with the extract and upload.

## Administration

We provide hosting for the data in the Cloud. When a company signs-up for Site Progress Mobile, an account is created on the Cloud and a number of simultaneous files activated.

The company's administrator then associates a mobile device with an individual and his device - by exchanging a one-time code. The system then knows a Company and User and which device they will use.

When the User has a signal (phone or Wi-Fi) the device will automatically synchronise with the Cloud. Any projects to update are downloaded and any submitted projects are uploaded.

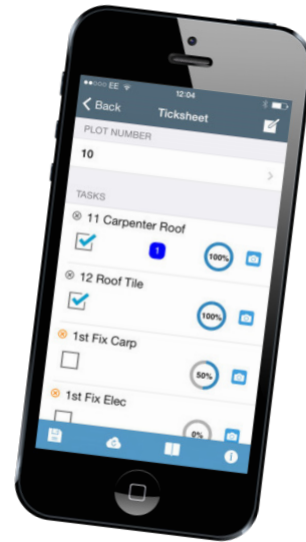

## Site Progress Web

In addition to the mobile application, Site Progress can also be accessed via the web.

### Turnaround Tasks

Selected chart: Site Establishment -

Name	Progress (%)	Dates	Days Remaining	Note Photos
Demolish Existing Structures	50	Actual Start: 20/03/2015 Actual Finish: 30/03/2015 Planned Start: 20/03/2015 Planned Finish: 29/04/2015	5	
Excavate to RL	15	Actual Start: 26/03/2015 Actual Finish: 30/03/2015 Planned Start: 30/03/2015 Planned Finish: 29/04/2015	11	
Temporary roads	0	Actual Start: 21/04/2015 Actual Finish: 27/04/2015 Planned Start: 21/04/2015 Planned Finish: 27/04/2015	5	
Trial Pits Trial Pit #1	0	Actual Start: Actual Finish: Planned Start: Planned Finish:	2	

Site Progress Mobile components are free to install, with use of the service charged according to the number of active jobs uploaded to the secure cloud storage area. The fee covers the software license and technical support.

The active jobs produced are per user and per project. E.g. 3 managers may update different parts of the same project and one of these managers may also update another project - this would contribute 4 active jobs toward the total.

For a quote based on your needs call 01844 261700. The only distributor and training provider in Turkey is Prone Project. For more information visit [www.proneproje.com](http://www.proneproje.com)
